Good morning Officer Freeman,
We are writing to give you an opportunity to respond to a forthcoming report about your interests in several City of Atlanta vendors.

If you intend to respond to this inquiry, please let us know when we can expect that response.

1. Do you now or have you ever had a financial interest in or receive any form of monetary or non-monetary compensation (whether to you or to Blue Maverick LLC) from Axis Communications?
2. Do you now or have you ever had a financial interest in or receive any form of monetary or non-monetary compensation (whether to you or to Blue Maverick LLC) from Fūsus (now Fusus by Axon)?

Thank you in advance,

Good evening, Officer Freeman.

I'm writing to provide you with an opportunity to respond and/or comment on a piece the Atlanta Community Press Collective plans to publish Monday.

The piece reports on your January 23, 2024, Ethics disclosure, wherein you identify a financial conflict of interest and document your recusal from discussion and voting on "all financial matters and decisions that have financial impact for the vendor Axon." You identified the source of your financial conflict of interest as your "interest in a company that is currently in talks with Axon around acquisition and investment."

Records obtained by ACPC through the GA Open Records Act reveal that you corresponded with Axon representatives and/or FUSUS representatives about additional uses of their technology by APD or other departments on January 9, January 18, and January 25. In addition, you are quoted in a February 1, 2024, Axon press release announcing its acquisition of Fusus.

Questions:

1. Is the company in which you declared you held a financial interest that was 'in talks with Axon around acquisition and investment' Fusus? If not, please identify that

company.

2. If so, (a) what is the nature of your interest (please include an ownership percentage or other specific descriptor allowing the public to gauge your potential personal financial windfall from the Axon-Fusus acquisition); (b) when did you first acquire the interest; (c) how much would you estimate it is worth today?
3. Did you provide the statement attributed to you in the February 1, 2024, Axon investor relations press release?
4. If so, (a) when, (b) to whom, and (c) using what method of communication?
5. Did you seek or receive ethics guidance from any APD supervisor, City employee, or other entity prior to (a) exchanging emails with Axon/Fusus representatives on the dates identified in January; (b) after filing your January 23 ethics disclosure?
6. Did you or your partner buy or instruct others to buy Axon or Invesco securities or other instruments between December 1, 2023, and February 1, 2024?

Thank you for your assistance with these questions.

Hi Rachel,

I hope you had a great weekend. I'd love to connect and find a time to chat with Chris sometime this week or next. We have a few not yet on the market products that would greatly complement Fusus. We'd love to set up a time for a show and tell.

Thanks,

Troy

Troy and Chris,

As discussed, it's a pleasure to introduce you both. As we think through the possibilities of working with GunTag at APD, it would be helpful for you both to connect as Fusus as the system that powers our intelligence.

I am happy to join a call and discuss my thoughts about what would be helpful for the officers and investigators and how we can bring the capability to the department.

Troy, FYI - when I spoke with Chris, he mentioned traveling internationally this week so you might not receive an immediate response.

Fusus was not apart of the Axon contract, so it would not role into it. It would need to be added to the Net Planner contract.

From my perspective, this would need to be acknowledged. Without it being in the Axon paper, how else would we keep the solution? Fusus was paid for by APF for the initial term so now it would rollover to the existing agreement.

Good afternoon gentlemen,
Hope all is well!

Please reply "acknowledged".

Just closing the loop on an admin item. No dollar change to the contract. Just looking for acknowledgement that Axon is adding in Fusus to the contract licenses at \$0. Your old Fusus agreement is up and now Axon is picking it up:

Based on Q-584919 in the contract package signed in May, Atlanta PD will receive Fusus deliverables stated below.

Product Code	Product Name	Quantity	Requested Ship Date	Start Date	End Date
101359	AXON RESPOND - FUSUSONE - ENTERPRISE PLUS LEVEL SAAS	1		1/31/2024	1/30/2035
101424	AXON RESPOND - FUSUSCORE - EXTENDED WARRANTY	80	1/31/2024	1/31/2024	1/30/2035

These were included in the cost already approved in the contract, and there is no net increase in the contract by accepting these deliverables. They will show up on future invoices as part of the already agreed upon annual invoice.
